WHY WE MARCH

- 250,000 preventable deaths per year between 2030 and 2050
- Climate refugees
- Malnutrition/starvation from climate caused global famines
- Increased prevalence of zoonotic disease
- Deadly natural disasters including heatwaves and hurricanes
- Mental health trauma, stress, anxiety, depression, suicidality

...because the climate crisis is a health crisis, our patients and communities need us to take a stand
